

Here are some things a child with normal hearing should be able to do. Use the hearing milestone chart to check your child's hearing at home.

### 0-3 months

- Jumps at a sudden, loud noise
- Calms down when you speak

### 3-6 months

- Turns head or moves eyes to find your voice
- Plays at making noises and sounds

### 6-10 months

- Reacts to hearing his/her name
- Begins to understand easy words like “no” and “bye-bye”

### 10-15 months

- Repeats simple words and sounds you make
- Uses two to three words other than “ma-ma” and “da-da”

### 18 months

- Follows simple spoken directions
- Uses seven or more true words

### 24 months

- Understands when you call from another room
- Points to body parts when asked
