

Get Out Alive! A Fire Escape Planner

This is your fire escape planner. If a fire starts, smoke and heat can kill you unless you plan in advance to escape quickly. You may have only several minutes to reach safety. Everyone needs to know how to get out so they can act quickly and without panic.

Your fire safety plan requires:

- Smoke detector on each level of your home.
- Fire extinguisher on each level of your home.
- Escape routes marked on a floor plan
- Specified meeting place outside your home.
- Plan to evacuate everyone in 150 seconds, including children who can't get out by themselves.
- Practice your escape plan monthly. Practice at different times of the day and using alternate exits.
